Art Unit: 3663

1. This action is in response to Applicant's letters received February 3 and 6, 2004. The amendments have been entered and the arguments have been considered.
2. The text of those sections of title 35 U.S. code not included in this action can be found in a prior Office action.
3. In view of Applicant's amendments to the pending claims, the first Office action rejection (section 1) is hereby withdrawn. In view of Applicant's arguments as to the first Office action rejection (section 2) of the pending claims under 35 USC 101, that rejection is hereby withdrawn.
4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 3663

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1-58 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-57 of copending Application No. 10/027,749. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims pending herein are merely broader in scope than claims 1-57 of 10/027,749.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

6. The references cited by Applicant (PTO-1449; received 2/6/2004) have been considered and found to be fairly representative of the state of this art.
